Dear Bill,

11/20/96

Norris' producer named Steve phoned me yesterday. I'm to do the show in the 10 a.m. segment the 22d. Many thanks !!!

Kentucky should be in mourning over that Heaven Hill fire. What a tragedy! What a waste!!

I have a hunch that if the Enquirer was interested you'd have heard from them.

Hope you can get your brother to the Mayo clinic. They are fine and should be able to help him.

Jammed up a bit. Problems with the retyping and with major omissions in what was retyped. Think I've got it all corrected so that it can be corrected on the disk and then printouts.

Oprah Winfrey is having Marina for the show of the 22d.

Wrone has some men working on a documentary coming here next month.

He did a table of contents and a biblio for Hosty's Pudding and what needs some work but would be fine, an extended table to contents for it.

He plans to do some of that for Waketh, which would also be fine.

Best,

Harold
